

DO YOU AUDIT YOUR WARRANTY CLAIMS?

Get paid for the warranty work **you already did.**

Buck, our audit tool, checks every warranty job in your POS against the claims portal and sends you a Monday list of what to answer, fix and file.

Use **Marcone** for your parts and claims support. Use **Buck** to audit the history and make sure you aren't leaving money on the table.

Never filed

The job is done. The claim never goes in.

Sent back

They ask for a photo or receipt. Nobody answers.

Rejected

Wrong serial or duplicate. Fixable, never fixed.

REAL NUMBERS FROM ONE APPLIANCE DEALER

paid claims left open in the POS, now closed

How Buck pays for itself

■ Covers our fee ■ Back in your pocket

A few recovered claims cover Buck. At one dealer the average unpaid claim was \$172. The rest is profit you were already owed.

Plus a week of office time back. By hand, this check takes about a week.

Buck's list, every Monday

- 1 Answer the claims manufacturers sent back, in their own words.
- 2 Work the rejected claims that can still be collected.
- 3 File the finished jobs that have no claim yet.

Every claim named with customer, invoice and dollars.

- ✓ Read-only. We never change your records.
- ✓ Accountant-reviewed before it's sent.
- ✓ Nothing new for your staff to learn.
- ✓ HieCOR, ServicePower + others. Inquire.

One appliance dealer, Sep to Oct 2026. Dollars are the store's invoice totals; we count only claims paid after our report flagged them. Results vary.

90-day Buck look-back: \$199

100% guaranteed: if Buck finds nothing, you pay nothing.
